Dear Sirs;

It is with a sense of gratitude and great pleasure that I have been requested to acknowledge the efforts and invaluable assistance that Mr. Robert Welk, has provided (Pro Bono) to our patients, office staff and many others who needed professional assistance in deciphering which insurance policy would provide them with the most optimal and affordable medical-health coverage. His demeanor was always warm, welcoming and thus re-assuring to all but most obvious to the elderly and infirm patients.

Our entire staff of 8 physicians and 20 employees un hesitantly endorse his extra-ordinary efforts in serving the neediest. He is to be regarded as a "beacon" for his contemporaries!
